

Brigadier General AKM Mahfuzul Haque (Retd)
FCL-Managing Director

AKM Mahfuzul Haque served in the Bangladesh Army from January 1978 to January 2012 and retired as a Brigadier General. As the Managing Director of FCL for the past six years, he has gathered vast experience in the management of construction and execution of projects in different sectors, including the Bangladesh Armed Forces. He has multi-dimensioned networking and associations in various sectors. Brigadier General Mahfuz has established the company, ensuring adherence to the rules and regulations, quality, and timely operation.

He is a result-driven, motivated, and resourceful managing director with a proven ability to develop and strengthen his teams to execute and implement target-oriented projects efficiently. He has excellent communication skills and can establish sustainable and rational relationships with customers, suppliers, and other stakeholders within and outside Bangladesh. He was elected President of Mirpur DOHS Porishod for three consecutive terms and dedicated himself to improving the lives and livelihood of the residents of Mirpur DOHS.

He is married with two children and two grandchildren.

INTRODUCTION

Farees Construction Limited (FCL) (a sister concern of MAN Enterprise)

FAREES CONSTRUCTION LIMITED (FCL) is an independent engineering construction company with an objective to provide complete and international standard technical approach in the construction industry of Bangladesh. Man Enterprise ventured into the construction area as early as 2012 and Farees Construction Limited (FCL) was formed in 2017 to join the venture. The company was created out of a vision of Brigadier General AKM Mahfuzul Haque (Retd.), the CEO & MD of Farees Construction Limited, to serve the nation with top-quality professionals.

FCL consists of a professionals, experts in the development sectors, and experienced management. The organization have launched country-wide nation-building activities by completing several multi-storied buildings, hydraulic structures, deep tube wells, water purification plants, irrigation, flood control projects, etc. FCL is also experienced in constructing piling (situ/bored/caisson), pile cap & retaining structures etc.

Over the short period after its establishment, FCL gathered experience in different fields, working with local and foreign experts and management professionals in both government & foreign funded projects and delivered mentionable construction services. Combining experience with quality, FCL emerged as one of the top construction firms in Bangladesh. With workmanship and refinement, it earned a reputation in several sectors involving engineering and technological inputs.

MISSION

Commitment to build on a tradition of trust through dedication, collaboration, customer satisfaction, and value creation for a green future.

MISSION

Our mission is to deliver safe, sustainable, high-quality works and services which uphold our core values like safety, commitment, optimism, quality, trust, integrity, performance, excellence, and discipline.

OBJECTIVES OF THE FIRM

The primary objectives of Farees Construction Limited were drawn up encompassing the development of rural industry, the infrastructures like water supply & sanitation, rural roads, bridges, culverts, drainage-sewerage lines, box-culverts, pipe drains, pump-station, water supply, schools, hospitals and welfare services, and programs for various other types of development works.

The major objectives, as has been identified, are:

- To provide technical assistance services to government, semi-government, private sectors, financial institutions, and development partners
- To work in cohesion with the government and the private enterprises in identifying areas of development, which are vital and crucial
- To develop the sectors of engineering, energy, water, power, transport, communication and public health sectors, etc.
- To develop rural, urban and regional project implementation
- To strive for quality output of projects in respect of relevance and functionality, as well as economy

Areas of Activities

Bangladesh being a predominantly rural economy, the priority need calls for balanced development, covering the whole gamut of socio-economic life. The scope for economic development, especially in the rural and allied fields, is almost unlimited. But, the development programs require comprehensive planning including study of social, economic, institutional, environmental and physical factors.
